NOTICE INVITING GENERAL CONTRACTOR PREQUALIFICATION

Prequalification Questionnaires will be received by the University of California, Irvine (UCI) from General Contractors (GC) wishing to submit DESIGN BUILD proposals for:

GREENHOUSE REPLACEMENT, PROJECT NO. 991106

Prequalification questionnaires will be accepted from contractors teamed with architects that have completed comparably sized design-build projects as described in the questionnaire.

PROJECT DESCRIPTION:

UCI’s existing Greenhouse/Headhouse facility will be relocated, designed and constructed to provide a new, modern, and technologically superior facility. The existing facility is approximately 15,000 gsf of greenhouse and headhouse space, which provides essential laboratory and administrative space for all the research greenhouses. The existing facility was constructed in the 1960’s and this project will relocate and provide UCI with a new, state-of-the-art greenhouse and headhouse complex. This new complex will provide support for research, undergraduate, and graduate training for the Schools of Biological Sciences, Physical Sciences, and Medicine.

The new facility will be approximately the same size as the existing complex with upgrades to meet current and future campus needs. The greenhouses and lab space types in the existing facility will also be re-evaluated to provide for new advancements in science and greenhouse technology.

The site for this new project is about 1/4 mile west of the existing facility located just west of the existing Science Library at the intersection of West Peltason Drive and Academy Way.
